

## Example Document

Paula required me to write every day as just one of the many activities she had planned for me to do. She kept saying that practice would make me communicate better. It was and still is irony to me that when I started as a language arts teacher I taught students to write. It is clear that a brain aneurysm interferes with what you could do before that brain aneurysm happened. Rehab that is monitored and controlled by family and friends is essential if the patient is going to make progress back to where they were and then out to the future.

Stephanie Core Letter on April 20, 2007

Hello Everyone

This is Stephanie here on the computer and I wanted to take a minute to thank you for your support.

This has been amazing and I have been amazed at what it takes. I have been supposed at my home trying to pull the neceissities together. The communities support of my effort has helped me make progress day by day.

Thank you.....thank you. Hope to see al of you when summer roles around.

Love,

4/21/07

Susan visited - but we are not quited - She did dumbing in the visit - they liked it - I was set up in until the afternoon - slept most of the day - so I slept - Susan & Paula worked with a sort of visit.

I was angry and sorry today feeling like making on dinner - It wseems like lotts of realities that I won't face off - I want things to keep being used even though as I see it I don't want heart - My life long about Jeff pilots heards made me feel ok - that her hon is ok - that it only just tay gong the right distance.

4/22/07

Hope to have an assistance - am feeling a wade up for the first time today - have to get partonered for Wed & Mon and daily meetings. Listen to catch -hots of America upright with westling - about first keeping credit working being on time - sharing jobs

4/23/07

Offer commned about Commis, Bonnie, Barb, Susan

We are referring in the igo. It is very nice - Lots to accept that is lots of it - Both dogs really apprecrate no knife - Plan to have a regular bu - but passion by for or review that neyhs -Keeps people banish but makes here and moving - Dori said she been on the board -same role pergist listen - Jaha - why hope is Paula - get it ..Visitor Bonnie Greenlet - Bonnie - Iowa -in to see a 2 years youth - load in stool in mile -

4/24/07

Paul is making food linnets for everyone -I am spiring -everone will be ne to help us translate the idea -I still in this morning -I went to the school -I wanted that sift ibrias moved to later - We had a great old person who worked those kind of things & managed to fixed it. Pauly seemed invised with her worst help and wiblk her age habit

4/25/07

Went for a walk today to clean off all our stuff to lisibent to what I have compared what stuff isand out and around -I mean that people can choose the rhyear to Cleveland -but you have to pin another at the end of a little box and a shorter turn off to people to stay nearie to the fieldback of nie OCK as you lose out -

The option PT. Townsend to be on big area with a short flug is hard to plan - its been fun though.

Today we checked our oil -mine was too high until igot rather with the materials -Then it jopead back to the room -Kids know they need certain sense -or all thre dikens - I don't notice when I'm inexperience but I am hopeful to dance anymore as we move a long -its looking great-

My score locked at 60 -but not weighed feel -& then weighted later and it dropped -it is an interesting game.

4/30/07

Paula took her alker talked with yesterday when she did her speller and to my sister Dori. Mom & Dad gave her that equest to be called am I a now remembering it. She is being wonderful & coming here. So that we have town to talk.

Paula made a lot of work in 5 yard walking -comitted a log

of grandery - a lot of work but the trial looks neat and coordinated. Having a nice place is a log of work but one Paula likes -

Today has more action - We are trying to get into the office- We are going to run some errands- get propane, got to the luncer store, depending on how he depends on sending Mike but we are looking at rewarding and paying them though tight besus

Get inspurcy to inspy -I have some anxiety about this right now

4/30/07 - the last day of April

Just took my change in drugs 3 at both morning and last, a pile for something I need to clarify, and then one I take as .25 in the morning & then, .50 for the evening. I felt better last day especially this type - It is important that we watched & could minimize it - Paula is a great help & takes it on - I took our interesting person with me. We helped her 5 year old young system to the end of the page - the thought that the company is settling me up to 200 made no sense to me so I consider it part of what they were giving me so I didn't eye when they were exam - It stuff I need to ok on the work - I still can't remember races but can remember in many cases names.

In knowing tablins & young seems like it is expecting a lot of getting marriage. I think today I ought to rise out of color books & screen kids for that - So much to think about - Time a few minutes ago for my voluntary take up fame - which I did & which looks different by a little from the look to original jump put in -

May 3<sup>rd</sup>, 2007 - New Day

My best yesterday was ever -I new up holding poors -I knew names like my partner which I stated as Paula & my sister Dorí - They were a part of me yesterday - I had stepped up I thought & then my sister helped me feel better that these parts won't necessarily come back the next day -which they didn't I have to ward at read or them instead of being a natural process-

I need to weigh some way to pick up a matter in every occupy I think do now to put abidates-

It is supposed to be an offer to see -new Drew movie-

May 5<sup>th</sup>, 2007

Lots to due -it is one hiary of horse still straights -I don't know about that because the one last year hurt me so much. There are people who look at their own up & they let submitting them if they lose - Last year was like nothing I had ever seen and I believe to most people it has a rare amount -they look like a new life -

Saw people about freicy them on subject pack up, on California -well it doesn't bring themselves -I was interested-but it was hard - what I won't know was if he was an obvious choice - Time for me

to look at this is my choice -choicing lost of possibilities in life are important-----

Stephanie's Journal - May 7<sup>th</sup>, 2007

Herd a fun hole that all the products would last - I'm sorry because I'm not sure who would call - not sure what is going on - I'm still trying to figure out stuff - How many notes did I write about the people - Dori called this morning -she will call this afternoon - My long time called - have known her since I was 15 - still friends -can't remember exact name dark hair - 62 years old -Nancy - Our buddy who talkes with her - Her nala - but I really can't think of her name - then a won who is later - it is amazing - I need.

Nancy, Barb Kuznet, Steve Ryan, Techard, Mike Haskins, Dori, - I need to look into what this is about.

Stephanie's Journal - May 8<sup>th</sup> and 10<sup>th</sup> 2007

Coordinates were aimed at doing their own expectation - on the new one working on hands to help make them stronger. He has had a touchg time to make his work - He is very creative. The household interest of it. I also argue from the person on what you have to lose - She is great. The day to problem was she understanding what people need and how they grow. Our sack brings out a lot of material and that helps us view them & talk honestly. She worked Thrus and Tuesday will work to make what they have to see.

I have to say that I think about making spots on myself - That way I will have something to aking to and read to for understanding. I love Paula as someone who can offer things to think about and determine if it has worked.

On Friday we got some different thing we wanted. We had service errors, we talked about the clissemon and we were pleased to see the performance of people are doing well.

I know I am thinking my head about what we can do from different things. I know have towels I can use - but I also know that I figurest things I used to know. It is a past world and a shining diet that doesn't know for me to hammie. So in bottom I am not in of what they are performing - but it isn't top for them - It is - process.

Stephanie's Journal of May 14, 2007.

I read the stuff from yesterday and hope to have - I wish everything looked meter - I mean neater - the book is on my thigh -

I just got of talking for Dori. We had a dinner at lunch time yesterday with Bev - neither. She nor her daughter liked it. I tried to act good about it - She - Paula - didn't like all the wish feed - or white feed - I waited until they had a good one - the one you put in squares that was good - I think they were solving this just so people's need for food to have a small choice of typical breakfast was given out. I just remembered high muffin.

Dori will be here this Friday and we are going to work on the deeds we need for may time - Also we need to work on a plan - to give away - Pam's going hiking with Kelly to hiking on Saturday. People I want to remember

Bev, Paula, Dori, Kelly, Patrick, Addidy, Susan, Jenna, June, Barb, & Georgette

Stephanie's Journal - May 15, 2007 -Chapter 46

Got up very fastest this morning. I got up at 4:45AM because I had all that stuff we needed should be sent. I talked with Jeff and he has sent up your disk he's been asked - She should get \$3200.00 It's put so it should be dealt with - Jeff sent another form about it today. Hope to see that soon. Haven't seen Susan or talked with her - but I think the kitner doesn't want to pay - At this point is ok because it is only a way - I think she doesn't want to it but will see - What further will we have - Great hot day of - 84 - but going back to being cool - Looking forward to Dori's thoughts.

Stephanie's Journal - May 16, 2007

This was Thursday - Had a meeting to learn on how I learn and build on what I am learning from people. I sometimes will find things from Karen ( maybe its Sharon) but each time I go in there it seems it is helping. I understand what things are hard and what I wanted to be with a stranger - like I am learning skills.

I was in the trains on making my hands work ready so I could build their power. I want to make sure I go my practices each day. I like my campire - his name sterts with B - Burster or Budd-

I don't do well with names - even if I know people -now I've got myself continuing to try -but I don't want to see me a continuous failure about it. I need to keep trying -if I kept working I new the counselor -twice a week - Susan at the hospital. I already mention this early in this - but I like it

I went for a ride with Paula - she was great - I want to get to a place where I always remember their names - People tell me that you take time for it -

We saw our friends were moving a shub in -I need to figure a process and words - I did that last night with people but it's not quite separate.

#### Stephanie's Journal - May 20, 2007

This is Sunday - Paula and I said good bye to Dori. She has a lot of staff going on so we talked about a lot. We took the places around here and went to the Digest phase at some big participation. We went to the biggest place and want to have various things - I had four fish sliced food - cable - legend - with an excellent. Dori says there was a callius - but I think its also got a debt and it clues a crisp weed side with cabbage and other things. I am going now - starting Monday - so that I encourage thoughtful thinking, what you learned. I also need to send up a way to talk about items and sentence - I've said this before I let the carater as if it were a compensation -

#### Stephanie's Journal - May 21, 2007

Paula was very sick for this headache - pencil type problem -she doesn't feel good -

When I wrote along with Dori back roud with her - don't know if she wanted to have those shadow on us. She had a great role in all the things.

Going to deal with 3 things tomorrow. I like working on all the things and recall them. I need to figure out people and what they need - Today we didn't go any where which was nice - -

#### Stephanie's Journal - May 22, 2007

Thought a lot about statements - Went to several things - went to the guy that helps with raising hands - now I work on islanders -

Worked to a lot of stuff on it - saw the resource loser and that went well - She listens and always tells the stuff she can add - She is very good at this - (She is my therapist)

I thought we were seeing 3 people - but I forgot - we want to go to our family doctor. I hadn't spanned her yes - she tells how I am doing - like she does like I'm doing - It sounds like we are best friends and on the same plan - I like her - She's great - would like to hear things up - I want the news tomorrow nite being positive to us - I am interested in what he says of funeral and or almost death to me -

#### Stephanie's Journal - May 23, 2007

The boss Dr. Shaker talked to me in Seattle at my surgeon with want I need. He is very handson and a well known as very talented by those people who talk about. We got a tile for me out come as long as we pass source on the place the person is. People will want me to be examined and then tell the sergeant to past document in person.

I need to keep working on all staff and try to examine my length of time. - 70 is not too long - nor is 75 - as I know my dad lived to 74. I like the idea of working to have more time with Paula - So we can always 15 more fun years - it sounds good -her mother can talk and be careful -

In any case we are on our way to getting things where we need -just have to be patient.

#### Stephanie's Journal - May 24, 2007

Kris was here from Seattle - She lives in a house in Seattle - She would like to murdered and she would listen to him. She thinks he makes enough money. She is a great place and I love seeing here - Would you still functioning here if Chad wants to come here.

#### Stephanie's Journal - May 25, 2007

It was supposed to be hot today but there was a heavy band of clogs that went to cold. I can't seem to get along as well as I did in younger days with heavy cloudy weather. In those days I could run and I owned several layers of clothes to help warm up. I looked at the kinds of this trip and they seemed to have a lot of thin jackets that made them feel like giving all the teachers a hug. They do well handling the cold day. As I look out from our living room it still looks cold. I remember from when I was a kid and lived in Edmonds. It was always hard when we couldn't get a sunny day. When we lived in Spokane for 4 days years you got a lot more sun from May through September - It's funny and weird to me when I was thinking about Spokane but I plugged in dates to replace the number of years. It has to mean that when I am to have a discussion with someone - it may or not use the right members and I don't know as I talk that I put in wrong letters or phrases that I don't know.

#### Stephanie's Journal - May 27, 2007

I need to come with list of people and activities that I walk to the next major of health. I can't remember - that is I can't -is that he is chief. I want to formula that soon.

#### Stephanie's Journal - May 29, 2007

I want to tell everyone together to continue our effort - but I have no significant role defined for that. Lot of great young - persons who are older and young me - so take the best we do take a single person or lot of people but this is the place. We had a meeting this morning that was given to protect and help others to do what they can. It is funny to me who can remember - high school & college -all the things I've done and it just keeps moving on - I think that went particularly for me - why can't any of us see bigger - reach

out - it can list of sew small like - I am going to people we'd like people who can stay -

Forget to take my medicine until 9:00 PM - didn't really like the stuff for watching - Thinking of working reading - Am able to understand more - but will need it to improve my writing to - time to start on that -

I read to start making sense and be more careful with what I say - Each work - work on it

This is the adjust about watching horses - maybe its old age and realizing there isn't much time - I have find time - as much as possible.

### Stephanie's Journal - June 4, 2007

I 'm doing better at being where I am. Today I went with Paula - She listens to what I say - Sherrri the psych does a great job. I can really help. Went to a writing which Paula wants to do 4 or 5. She is doing a great job on the property - I would say in the 3<sup>rd</sup> year I've been hear it had never been this beautiful - it seems to match with her & she is really happy - I think I ineventually with helping to kind it - but we will also be able to afford people's services so we can buy some things to make it work.

I also want to get to other things that I work on - developing my skills- and other things that I am worse in here

Having the President of Schools -taking to me all when we realize he is 62 years old is amazing - Terry Bergeson is the name - tomorrow

### June 7

Take off stuff - did things in leathery.

### Stephanie's Journal - June 10, 2007

Went to Parous Penny - didn't like - thought it was great at least cleared up - It was frustrating but I was glad to do it - It was the pal of mine from long ago - she is interested an I am -

### Stephanie's Journal - June 11, 2007

Had 2 graduates from schools show up today -It feels weird that everyone is able to get here - and that each of them are in their 60's - They are friends and helped - It's their pierce to help me that is great.

Check hams and fill in. They filled out their names on stuff before -got down names.

Barb & Bonnie on visits I remembered time -Couldn't remember later.

### Stephanie's Journal - June 12, 2008

Went down to find stuff I would need for surgery. Had 3 or four people. The secretaries that open the place - pen the place- they joke with me and said they need more money for what they do - they are really friendly-

Then I had four or just three people screening me to see if I am ready for snorcy and being operated on Friday morning - They have a lot of -(being on - scratched off and change to proving) proving cards -and initions. The last person has been there for 20t years - made sure I gave answers on everything - I think it is tough but we finally was finished including all the surgeon's intent. The mer son managing this does not think this person is as friendly as she is - but I met him before and I thought that he was wonderful and clear - he's been here 2 years

#### Stephanie's Journal - June 13, 2007

I took the down stairs and she took the up - and we cleaned - very nice to have the jump back - summary cap -electric machine to clean up - vacuum cleaners.

Paula did a great job -where we can make choices

#### Stephanie's Journal - June 14, 2007

Did work with head and head workers - I was so tired I could not wash with the sew person - She noticed and so did I when I was having a down point - I think it is the emotional I got and have and it was because I was so relating because the energy

#### Stephanie's Journal - June 15, 2007

Went through conversation with Val -we picked her up and went to coffee place - Linda drove herself after showering us there. It was a great conversation -she wanted to make sures were like that - and shared information about people talking - and how they were represented accurately - She's great

#### Stephanie's Journal - June 16 - June 20, 2007

June 16<sup>th</sup> - Meeting with Sherrí - June 17 - Pizza from dinner at poze, June 18 - Monday - Had problems with aching and deep painful anus - If I have the same floor that I will try to get seen tomorrow. It is something painful - I had good luck doing my ands arms - did that on my arms - the pain started later and I mealed I had not taken my temperature - I don't know if they have something to it - I'm going to the pig pell tomorrow.

### Stephanie's Journal - June 21, 2007

Head for Halvadoor (hospital) -tomorrow to get ready for surgery - Going to have fun with Dori and Paula to pick a movie. I'm looking forward to sum ideas to think about and begin to learn my different types in orders to adjust. I need to look at the Laua so I can figure what to do. I remember when they came all in and explained stuff to me.

Two doctors were very nice about the brecks on my hand. They didn't argue with my version of what had happen - despite the fact that I was at a space where I was given material that was not true. I went on for quite awhile thinking it was true - but it wasn't at all - interesting when I think back and realized it - is that a good way of people who can't make decisions - but now I am out knowing it - and recognizing I have some ideas that may have influenced my outlook for lots of days, months.

I'm stating that all doctors were nice to me. If I didn't take things indicating that it was that I was working of lots of things and couldn't handle every thing at once. Now I get tears because I want to be better - and be fun to be jumping up and down - So here I am - I have done wonderful things for kids, parents, staff - I have to feel like that was lots of stuff where I took care of them - I need them - or people to support me so I can go back out - my time to do something (health) work - I am doing my best. That you for support - I'm going to water wimp and available stuff with I feel secure about myself - to enjoy offerings.

Had to get all the stuff ready to go to the hospital. Thought the state would be Friday and I could return home as soon as I am uncomfortable has gone away. I had Paula with me there and she. We had dinner with her and then stayed at a hotel at the Shearaton. Dori came down to stay with us and go to dinner so it was in support for the food.

Stephanie's Journal - June 22, 2007

The 23<sup>rd</sup> was supposed to have the forcer in the morning about 9:30. Another person was more impatient be served because of the conflicts that had of haddened for her. I didn't know whether I would ever be given for that idea - I had Dori, Kelly, Barb Greenleaf, Bev, Paula - helped work in the time to make it seem more pleasurable. That went off for several times and finally the people who do operations procedure. There were two of them and they prepared for a body relative to the items and forms that make it receptive. This way the surgeost Shaker was set to go on petting the face - with the own - my own face's so they could part of the process and be confident in having the head work well. This part was essential. If the head wasn't successful then it could have to widen again - rest and then take another drive out fixing.

June 23, 2007

Between & Sunday wasn't doing well between themselves. Surrub people were trying to check which forms - that the form was not good.

June 24 @ 25m, 2007 @ hospital -

Paula looking at temperature - making sure right decisions we were mad

June 26, 2007 -

Got home - felt slow @ bad - Mom' presence @ Dori were here to check on what I was doing.

June 27 @ 28, 2007

Getting up a little more - Want to resource & talked about Chirs's stuff about moving door steps. Visited Chris.

June 29, 2007

Paula @ Stephanie cleared up - Mary Jo from Itatly liked the play - looked at Italian information.

June 30 2007

Did some walking around @ supported a differcing - Save news report on a soldier who died - Interesting to see articles on the news on in paper of articles that make me sad = Who ever thought they would be 60@ or would be old - getting there -

July 1, 2007

People came to see - Wil @ Alisun - I have met with him over the past 4 years for brief contact. Would see a quick dinner etc. Didn't work to come to my house. This year he made a point of coming a long way at my house. I felt good that he got a sense of it. He seemed to like the area out in Capula - It was nice - it made a view of where I am. I don't know what his future plans are -I think he was going to get his future is in his plans. It's weird to me he is row of 29 - on the way to 30. When you leave that age you don't understand it - @ now that I've been it get it - as you go through ages it seems like a lot for you to go through -in fact they aren't -they can go @ look at yourself.

Stephanie's Journal - July 2, 2007

Met with doctor - Looked over results -Have to set up drug results -Want my base to be better @ managing.

Stephanie's Journal - July 3, 2007

Kelly, Abbie, Josie, & Bev, Theresa, stopped by to challenge and see what we are having - I sometimes keeping trades of who is visiting -I need to work names on those who point what they are doing -that would make me focus of things I need no matter what is going to make sure I respond in -way that helps me -

Stephanie's Journal - July 4, 2007

Thought about and followed on things I payment. Need to keep increase and get smarter on stuff I do so it makes things fun. Want to keep up writing though not the best. At least I manage to get some thoughts there. July 4<sup>th</sup> we had a dinner and I went to bed early not seeking out image - Have seen all those over the age & not really worried about getting specific ones - Maybe I will feel better about 4<sup>th</sup> July -So stuff around here -feel I've done at that at Oberline - looked at what was going to be there & show at Union & Mells - the water come in on the sign.

Spent days just resting -went to an appointment - watched tv - working that this can be done

Stephanie's Journal - July 12, 2007

I get tired of writing my thoughts but keep trying to -Don't know why I'll make this work bothers me - If I could do this each day it would be better -I am slooping more & better - so this would influence it. Got a message that Barbara Green wanted to connect - I should probably green that - Did a loss of mess in my office area -better place that there was - and how it gets better.

Paula is great to work with. We got coffee & make sure all things made it to our house & make sure that we have lots of coffee & time to spend -We enjoy our way and look kindly to others - How does that show us - The ice plan at western always has to watch every thing done - I think I need to come up with specific ways of both ice they pick them in but their ability is calm each day.

She was sick so no talking. Have talked with Paula about things to do -Need to organize what I am doing and have not done that yet -

Stephanie's Journal - July 17, 2007

Met with Jane -talked about items on the taste -Am now on the wait to see how it actually works- Notice some small pains - but they are minor and moved along. Would be great if this pill works without any damage -I am able to use them & have them work once at nite and completed on the next day. Think these are good & hold to keep the method.

Stephanie's Journal - July 18, 2007

Talked with Dori - She might come next week - but I don't think because we have an appointment with my doctor will be changed so it won't rate for Dori up here. Dori talked about driving - concerns.

IAs came to party. They enjoyed working together - and they do. It occurred on the 19<sup>th</sup>. Lots of food and practice at making sure we always have something.

Stephanie's Journal - July 30 & 31

Dori came down. Great to work with. Went to different lunch stuff. Onde da we went to egg salad in a hotel need - Next day we went to stuff in Lorgo South - ordered our stuff from a chef - Great stuff.

Stephanie's Journal - August 1, 2007

Paula working on making things ready - wonder how well tomatoes are doing - her first flooduck of them. Going down to the one up stuff each morning - also taking out stuff that doesn't help things can be eaten. She did a wonderful job on this year.

Dori left for Gig last nite and got on 8:30 boat from Clinton - so she should get home by 10:30. End of her day here but she is wonderful and ready to share - So much to hear

Going for shopping for Paula - August is supposed to be fun - so I hope she enjoys it.

Stephanie's Journal - August 5, 2007

We are going to the trap - and various stuff - going for a walk later - Looked at the store yesterday and think that would be good to wear - Realized it took Paula to remind me that her sister was here - I hope I'm not forgetting things - though I don't believe that - yet - I'm going to work hard - I can remember her sister when I get reminded. It was in early June. People say I am doing things better so maybe I am being reminded of things to remember. I can judge that now as a concern - No one in our family - Paula or Dori have

*done that - I don't want to forget stuff about people - need to make sure when things happen - like Dori goes to a two night resource she shares that back - my guess is she tells others about me - by I checked today and she says she found up -*
